HAVE YOU EVER HEARD OF 'INDOOR POLLUTION' BEFORE?

According to the US Environmental Protection Agency, the air inside a typical home is on an average 2-5 times more polluted than the air just outside and in extreme cases, 100 times more contaminated largely because of household cleaners & pesticides. On the contrary in India, Indian air being even more polluted than that in the US, we hardly care about the harmful toxic chemical ingredients present in the home cleaning products!

If you pick up any home care products from the market, you will notice the 'warnings' mentioned on its packaging. The reason being these products are highly toxic and contain harmful chemicals. They pollute our homes as they create fumes in the air that we breathe; they harm our skin if it comes in direct contact with the product; it also leaves the

chemical residues all over the surfaces that they clean. The studies show that these harmful toxic chemicals can cause multiple serious illnesses to the adults and children at home.

Introducing 'Clean & More' formulations that are based on probiotics and enzymes. These products are best at cleaning naturally and they do not contain any harmful toxic chemicals.

Why Clean & More?

- Made of plant extracts
- Non-toxic & eco-friendly formulation
- No harmful residues
- Highly concentrated
- Safe around kids, pets and the planet
- Never tested on animals
- Kind to waterways and marine life

Multi-purpose Home Cleaner

500ml | M.R.P. ₹ 375

Biofit

Biofit is a truly holistic range of products that promotes organic farming. It helps to control pests & diseases, to increase the agriculture output and to reduce the input cost without using harmful chemical-based products in farming. It also provides the herbal and organic solutions to optimize the health of livestock.

Stim Rich

250ml | M.R.P. ₹ 500

500ml | M.R.P. ₹ 1000

1 Litre | M.R.P. ₹ 1695

Stim Rich is a plant growth promoter that makes plant vigorous, healthy and productive at all growth stages. It is easily diluted in the water. It helps to increase yield if used as directed.

How does Stim Rich act?

When sprayed on leaves, it is readily absorbed and transmitted to other parts of the plant. The proteins are in the form of simple amino acids which can easily be utilized by the plants. Stim Rich improves the physiology of the plant and it has tonic and growth promoter effect.

Can Stim Rich be used for any crop?

Yes, it can be used for all types of crops.

When to Use Stim Rich?

Stim Rich is essential at all stages of the crops. It can be used:
During important growth stages of crop.
To reduce flower drop and fruit drop.
With other products for synergetic effects.

Benefits

- When sprayed after stress conditions, it expedites the recovery of treated roots.
- Rich roots are developed as Stim Rich makes nutrients available for roots.
- It prevents crops from diseases during its essential stages like germination, flowering, fruiting, maturity and harvest.
- Helps leaves to expand as a result of cell enlargement that in turn results in more photosynthesis.
- It helps to reduce flower drop and fruit drop through controlled abscission.
- It has synergetic effects with plant growth regulators (Gibberellic Acid and Auxins).

How to Use

15 ml of Stim Rich into 15 litres of water

To Know More

Bio-95 Concentrate

500ml | M.R.P. ₹ 1000

Bio-95 is a spray additive. It works as positive catalyst for all agricultural products and increases the effectiveness of pesticides and micro nutrients. It helps to reduce cost on organic or chemical products used on your field.

Benefits

- Increases the effectiveness of pesticides/insecticides /fungicides and reduces amount of dosage per usage.
- Helps to reduce expenses on pesticides, insecticides and fungicides.

When should Bio-95 Concentrated be used?

Bio-95 Concentrated should be used at the time of spraying any pesticides, insecticides, herbicides i.e. whenever you spray anything on your field you can use Bio-95 Concentrated in order to increase their effectiveness

Can Bio-95 Concentrated be used on any crop?

Yes. Bio-95 Concentrated can be used with all pesticides, insecticides & herbicides used for any crop.

How to Use

Add 5 ml of Bio-95 into 15 liters of spray solution of fungicides, pesticides and micro nutrients. Read directions given on label carefully.

Soil Health Enhancement Technology (S.H.E.T)

1 Litre | M.R.P. ₹ 1200

A healthy soil ensures proper aeration, retention and release of water and nutrients, promote and sustain root growth, maintain soil biotic habitat, respond to management and resist degradation. Hence, it is absolute necessity to improve soil health & increase crop yield by overall improving crop health.

S.H.E.T is a **microbial fermentation** product having a combination of bacterial strains from which Millions of spores GERMINATE and functions like "Plant Growth Promoters Factory", secreting some of the beneficial enzymes, which help to enhance plant growth & act as **BIOPROTECTANT**.

Benefits of SHET:

- 1. Promote plant growth & development** – SHET's bacterial spores continuously produce & secrete various beneficial enzymes without depletion. These bacteria are very essential during various plant growth stages & they inhibit around plant surface & rhizosphere.
- 2. Increase Soil productivity** – It improves soil texture & structure by increasing

SHET's sporal metabolic activity.

3. Improves Physical, Chemical & Biological property of Soil-

A) Physical Property -

- Improves root proliferation
- Increases movement of soil organisms
- Improves soil aeration
- Increases water retention

B) Chemical Property -

- Helps in retention of nutrient and release
- of macronutrient & micronutrients
- Toxicity prevention
- Energy storage in Soil.

C) Biological Property -

Organic Matter decomposition Habitat protection

4. Resource Acquisition – It assists in acquiring various macro nutrient, micro nutrient & essential minerals from Soil.

5. Spore secretion modulates plant hormone level, which result in proper functioning of plant at various stages.

6. Bio-protectant – It acts as a bio-protectant by secreting various metabolites and enzymes which help to build their own natural defence system.

When & how to Use:

- S.H.E.T can be used for all types of crops,

fruit crops, vegetables, cereals, lawns, etc.

- S.H.E.T is recommended at all growth stages of the crop to ensure benefits like high yield and good quality crop.
- S.H.E.T should be used for foliar spray & as a soil application.

Dosage:

Foliar Spray: 1ml per 1 Liter of water.

Irrigation: 1 Litre in appropriate amount of water for 1 acre of land.

Soil Application: 2ml per 1 Liter of Water. se it through drip, drench or flood water.

Compatibility -

- **For Foliar Spray:** Best result with Biofit Stimrich, Bio 95 & Intact.
- **For Soil Application:** Best result with Biofit N, Biofit P, Biofit K.
- S.H.E.T is a completely safe product for humans, animals and environment.

This product is certified by following Govt. bodies-

- DSIR-Govt. of India approved R&D
- Organic Certified by APEDA Approved Agency

To Know More

Intact

200ml | M.R.P. ₹ 850

INTACT is a unique herbal formulation for effective control of sucking pests. It is a product by Govt. approved DSIR Lab. INTACT is a potent combination of Indo-German formula made of herbal extracts, medicinal plant species such as Shahteera, Centella & Adhitora.

Benefits

- INTACT has a unique ovicidal, repellent and insect growth retardant action, which inhibits the incidence, feeding and multiplication of sucking pests.
- INTACT also reduces the sucking pests population and further crop damages.
- Ecofriendly, economic and effective solution for sucking pest control.

How to Use

- Add 2 ml of INTACT into 1 liters of water and spray weekly during early morning or late evening hours.
- Ensure that the underside of the leaves is also sprayed upon.

* Stock available at selected Stock Points (SPs) only.
Contact your senior Direct Seller for the list of such SPs.

CFC Plus

500g | M.R.P. ₹ 650

Profitability in businesses like cattle rearing, poultry & goat farming, horse breeding largely depends upon the health of the livestock. The feed given to the livestock is one of the key factors instrumental in building its health. The feed has to be nutritious enough to fulfill animal's nutritional requirements and also to build an immunity of the livestock so that it yields a sustainable production or performance across its productive age.

Keeping this concern in mind, Netsurf introduces CFC Plus which is advanced formula addressing livestock nutrition. It is enriched with essential Fatty Acids, Vitamin E, Selenium and Digestive Enzymes

that help in better feed utility for the animals.

Benefits to different livestock categories:

Cattle:

- Increases in the milk yield by 10%-15%
- Increases fat percentage and protein content in milk
- Increases lactation period and sustains milk production even under stress conditions
- Helps in preventing metabolic disorders
- Keeps cattle healthy during pre and post calving period

Horses:

- Better growth and development of skeletal system
- Helps in preventing metabolic

disorders and provide instant energy

- Helps in maintaining the skin coat luster

Poultry and Goat Farming:

- Provides optimum nutrition
- Helps in increasing immunity
- Reduces the mortality pertaining to malnutrition and weight gain

Administration: Administer through feed.

Dosage:

For adult cattle and horses:

Daily 10-15 gm

For Calves, Sheep and

Goats:

Daily 5-7 gm

For Poultry (Chicken):

250 gm per ton of

feed

To Know More

Cattle Feed Concentrate (CFC)

280g | M.R.P. ₹ 325

CFC is a food supplement for livestock. It contains vitamins, minerals, trace elements, proteins, amino acids, enzymes, probiotics and prebiotics, that supplement nutritional requirements of your livestock. It helps to increase milk yield and keeps them healthy.

How to feed

- Adult cattle- 10 to 15 gm per day
- Calf/goat/sheep- 5 to 7 gm per day
- Poultry- 280 gm per 1000 kg of feed or 1000 Liters of water.

To Know More

Wrap Up

1 Litre | M.R.P. ₹ 1500

Wrap Up is a plant defense booster derived through a culture of microorganisms. Once applied via foliar spray, it provides plant protection against microbial infection by forming a thin coat on the applied parts of the plant. This creates a structural barrier, which helps plants to defend microbial invasions. In addition, the metabolites from microorganisms act as a growth enhancers helping the root systems to absorb more nutrients.

How Wrap Up works?

Wrap Up, when applied over the plants, forms an invisible, thin layer over its surface. This is called as a **structural barrier** & it **prevents microbial invasions**. Regular application after predetermined intervals helps plants prevent recurring microbial attacks. This barrier, however, does not obstruct the respiration, transpiration and the process of photosynthesis.

Benefits of Wrap Up:

- It creates a thin coating, which forms a structural barrier that act as a defense mechanism for plants to resist any kind of microbial attacks.
- In addition, metabolites secreted by micro-organisms help in root system development and photosynthesis, thereby promoting

and enhancing plant growth.

- The secreted metabolites also help in reducing environmental stress due to drought.
- Application of Wrap Up acts as a prophylactic and preventive intervention, which helps in better quality and quantity of produce.

Dosage:

Add 1.5 to 2 ml of Wrap Up per liter of water for foliar application. Apply 500ml Wrap Up in sufficient quantity of water for an acre of land. Conduct the foliar spray at every 15 days interval, throughout the life cycle of the crop.

* When applied through drenching it helps to increase soil quality fertility and root development.

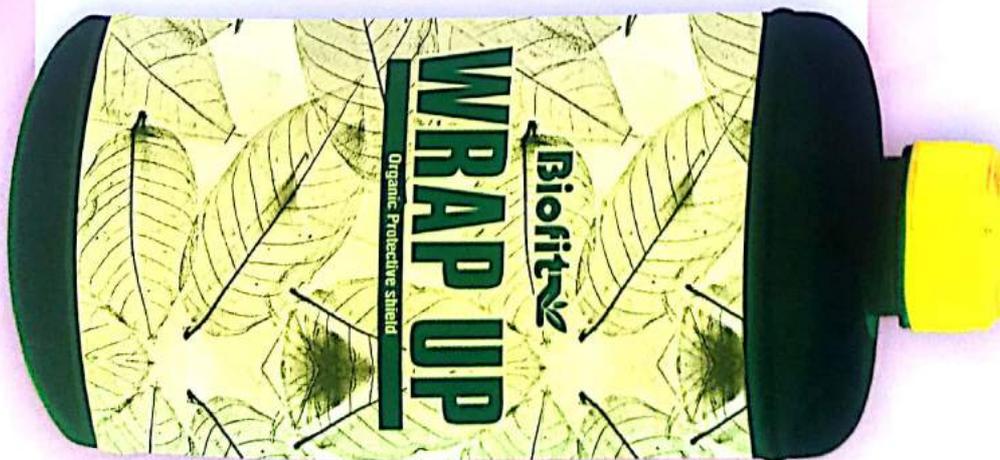

Compatibility:

Wrap Up is compatible with most of the biological formulations. Avoid mixing it with other agro-chemical products.

Recommendations:

All vegetables and crops viz. Cotton, roses, sugar cane, soybean, garlic, onion, peas, citrus, wheat, potato, chilly, grape, rubber and other crops.

To Know More

NETSURF REMUNERATION SYSTEM

Netsurf's Remuneration System helps you understand about the opportunity to earn additional income with Netsurf's direct selling business. The entry and registration into this business is absolutely for free. Also there is no restriction on initial buying of specific amount of products.

What is direct selling?

The company sells its products exclusively to its direct sellers at discounted prices. The direct seller purchases products at the discounted price from Netsurf's Stock Points (SP) either consumes them or

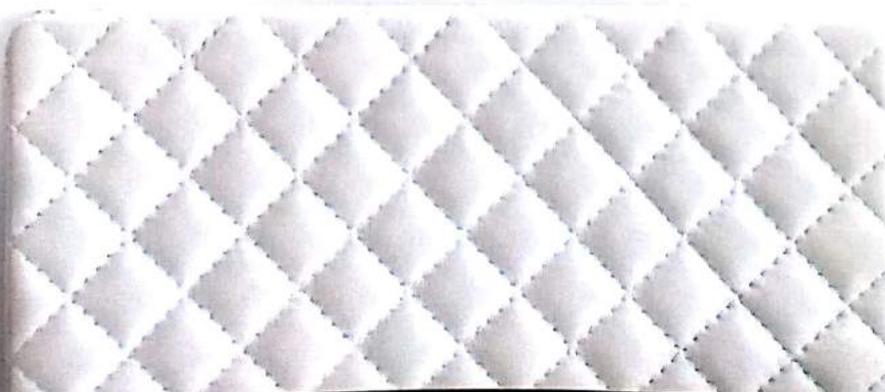

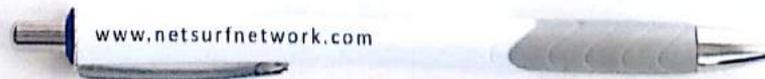

retails them to the customers on MRP to earn cash profits. This sale happens away from any formal retail outlet and there is no whole seller, stockist involved in this process, therefore, it is called as 'direct selling'.

Product Discounts:

The slab of discounts depends upon the total MRP of the products purchased by the direct seller. More the products he/she purchases more will be the discount applicable.

Note 1: The above slabs and discounts are subject to change without notice **Note 2:** All product worths are mentioned in M.R.P.s in Rupees. **Note 3:** GST applicable to be paid extra.

BASIC WAYS OF EARNING

1. #NETSURF EVERYDAY

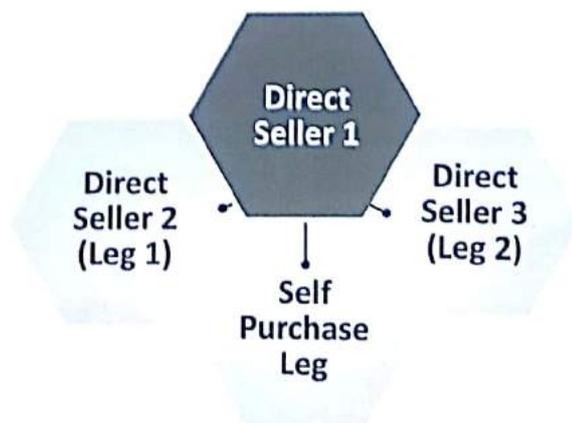

Netsurf Everyday is one of the avenues that the direct seller can opt for at any point of time. To enjoy the benefits of it, the direct seller needs to convert into an RDS (Retailer Direct Seller) and start retailing products on regular basis.

Benefits to RDS:

A. Loyalty Points: The RDS needs to enter Customer's data into the system to earn loyalty points. For each retail of Rs. 200 the customer earns 1 point and the RDS earns 0.5 point. The customer and RDS can redeem their points anytime through the options available on Netsurf's website and the mobile business app.

B. Additional Turnover-based Commission: If an RDS retails products worth Rs. 20,000 in a month (including his self-consumption) then he gets 1% additional Turnover-based commission. This benefit is applicable to Beginner, Lightening Star, Star and Super Star club levels only. (the concepts of commission and club levels will be explained in following descriptions)

In addition to the retail business, the direct seller has many more avenues to earn more in the form of commissions. To be eligible for earning different commissions at Netsurf, the direct seller needs to start appointing new individuals as direct sellers in his team.

Once the direct seller starts building a team, he starts earning 2 forms of commissions. Both these commissions are earned in every 15 days pay-out cycle.

Idea! 

BASIC WAYS OF EARNING...

Once the direct seller starts building a team, he starts earning 2 forms of commissions. Both these commissions are earned in every 15 days pay-out cycle.

2. Lifetime Commission:

A direct seller can earn this commission whenever the other direct seller/s appointed by him/her in his team purchase Netsurf's products. This is calculated as 5% of the total receipt value (of product purchases) made by the directly appointed Direct Sellers in that Pay-out cycle.

3. Turnover-based Commission:

Turnover of a direct seller includes the value of the products purchased by him plus the same of his team. This Turnover-based commission ranges from 3% to 6% and is calculated on the basis of the total business turnover made by a Direct Seller's different teams (including his own business turnover). For calculation of this commission, only two legs of the team are considered. Leg 1 is the leg with maximum turnover and leg 2 is addition of rest of the legs and self-product purchase.

How is the applicable percentage of Turnover-based commission calculated?

A direct seller's cumulative commission earned till date decides his club level at Netsurf and the club level in turn decides the applicable percentage of turnover-based commission from 3% to 6%.

CLUB LEVEL COMMISSION STRUCTURE

1. BEGINNER (TOTAL COMMISSION 3%)

Cu. Commission (in Rs.): 0 to 25,000
Turnover Commission: 3%

2. LIGHTNING STAR (TOTAL COMMISSION 3%)

Cu. Commission (in Rs.): 25,001 to 50,000
Turnover Commission: 3%

3. STAR (TOTAL COMMISSION 4%)

Cu. Commission (in Rs.): 50,001 to 1,00,000
Turnover Commission: 3%
Product Promotion Incentive: 1%

4. SUPER STAR (TOTAL COMMISSION 4%)

Cu. Commission (in Rs.): 1,00,001 to 2,00,000
Turnover Commission: 3%
Product Promotion Incentive: 1%

5. OPPS CLUB (TOTAL COMMISSION 5%)

Cu. Commission (in Rs.): 2,00,001 to 5,00,000
Turnover Commission: 3%
Product Promotion Incentive: 1%
Training Incentive: 1%

6. SILVER CLUB (TOTAL COMMISSION 5%)

Cu. Commission (in Rs.): 5,00,001 to 10,00,000
Turnover Commission: 3%
Product Promotion Incentive: 1%
Training Incentive: 1%

7. GOLD CLUB (TOTAL COMMISSION 6%)

Cu. Commission (in Rs.): 10,00,001 to 15,00,000
Turnover Commission: 3%
Product Promotion Incentive: 1%
Training Incentive: 1%
Business Development Incentive: 1%

8. DIRECTOR CLUB (TOTAL COMMISSION 6%)

Cu. Commission (in Rs.): 15,00,001 to 25,00,000
Turnover Commission: 3%
Product Promotion Incentive: 1%
Training Incentive: 1%
Business Development Incentive: 1%

9. CMD CLUB (TOTAL COMMISSION 6%)

Cu. Commission (in Rs.): 25,00,001 to 50,00,000
Turnover Commission: 3%
Product Promotion Incentive: 1%
Training Incentive: 1%
Business Development Incentive: 1%

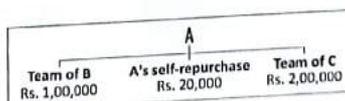

10. CMD PLUS CLUB (TOTAL COMMISSION 6%)

Cu. Commission (in Rs.): 50,00,001 & above
Turnover Commission: 3%
Product Promotion Incentive: 1%
Training Incentive: 1%
Business Development Incentive: 1%

Note: Cu. Commission means Cumulative Commission.

EXAMPLE OF CALCULATION: TURNOVER-BASED COMMISSION

For example, Master Direct Seller A has made a self product purchase of Rs. 20,000/- of his own in one pay-out cycle, and he has two teams namely, team of B & team of C under his network. If the total turnover of team of B is Rs. 1,00,000/- and the same of team of C is Rs. 2,00,000/- then the turnover-based commission of Master Direct Seller A will be calculated as follows-

STEP 1	STEP 2	STEP 3
Identify the maximum turnover making team= It is team of C	Sum up the turnovers of the rest of the teams i.e. Team of B & A's self-turnover = Rs. 1,00,000 + Rs. 20,000 = Rs. 1,20,000	Identify the lowest of the sum in step 2 and the maximum turnover of team C= it is Rs. 1,20,000
STEP 4	STEP 5	STEP 6
Add the same amount from maximum turnover of team of C to the sum in step 2= Rs. 1,20,000 + Rs. 1,20,000= Rs. 2,40,000	Assuming that A earns 3% of the turnover-based commission, calculate 3% on the answer of Step 4= Rs. 2,40,000 x 3%= Rs. 7,200 Hence, the turnover-based commission of Master Direct Seller A is Rs. 7,200 for the particular payout cycle.	The balance of Team of C's turnover i.e. Rs. 80,000 (Rs. 2,00,000- Rs. 1,20,000 = Rs. 80,000) shall be carried forward to the next pay-out cycle.

Note: A Master Direct Seller can earn a maximum commission of Rs. 8,19,250/- in one pay-out cycle.

ADDITIONAL WAYS TO EARN EVEN MORE!

Retail profits, lifetime commission and turnover-based commission are the basic ways of earning at Netsurf Network. However, there are ample of more opportunities through which one can maximise his income and cherish various rewards & recognition at Netsurf.

Opportunity Calender of the year

The year 2018-19 for the direct sellers will have these opportunities scheduled across the year like mentioned below-

B. Fastrack

Netsurf has a full fledged training program for those Direct Sellers who are seeking Direct Selling as a career option. It is a **program of 1000 days training** that one can obtain by achieving certain targets of turnover. This program, including one training session in every 2 months at 5 distinct levels, makes sure that the direct sellers are groomed well into the business and they learn to practice the best of the management skills to effectively manage & motivate their teams, market products and handle business affairs at all scales at Netsurf Network.

Benefits:

1. Regular free training sessions to boost your direct selling skills.
2. Domestic/International Tour for consistent achievers of Fastrack.
3. Leadership Bonus with an opportunity to double the income.

C. Club Netsurf

It is one of the oldest system for reward and recognition at Netsurf Network, which is an integral part of the Periodic Incentives. It's a phase-wise activity through which direct sellers can travel across different domestic and international destinations; achievers can enjoy luxurious holidays and avail training sessions of Netsurf. There are more than 8 thoughtfully designed themes of Club Netsurf.

D. Family Protection Plan (FPP)

The direct sellers from Opps and above club levels get covered under the FPP. It includes Life Insurance (coverage Rs. 5 lacs), Accidental Insurance (coverage depends on club level), Medclaim (coverage Rs. 3 lacs) and Nominee Facility, etc. **Note:** FPP privileges may vary as per club level of direct seller.

SALIENT FEATURES OF NETSURF'S REMUNERATION SYSTEM

1. Unique Club Levels
A ten-layered club system to establish appropriate Reward and Recognition for Direct Sellers and to decentralize Roles and Responsibilities amongst Netsurf Network

2. Product based Remuneration System
Emphasis on product selling rather than on recruitment. Commissions based on actual product sales

3. 30 Days Buy-back Policy

4. Consumer Centric Approach
Direct Sellers are encouraged to sell the products outside Netsurf Network i.e. to the consumers-at-large (end-users)

**5. No Joining Fees;
No Mandatory Purchase of Products;
No Renewal Charges;
No Inventory Loading on DS**

**6. Family Protection Plan
and Nominee Facility**

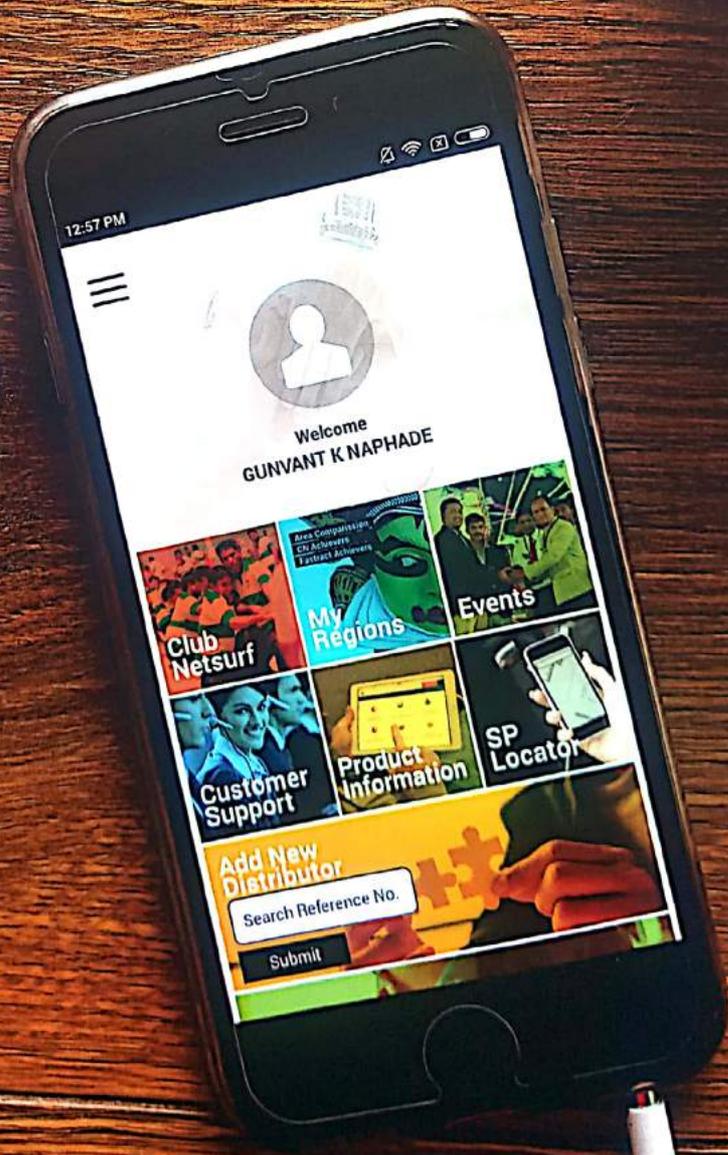

7. Reward and Recognition Program
1. Club Netsurf: Domestic and International conference for achievers
2. Fast track Training System

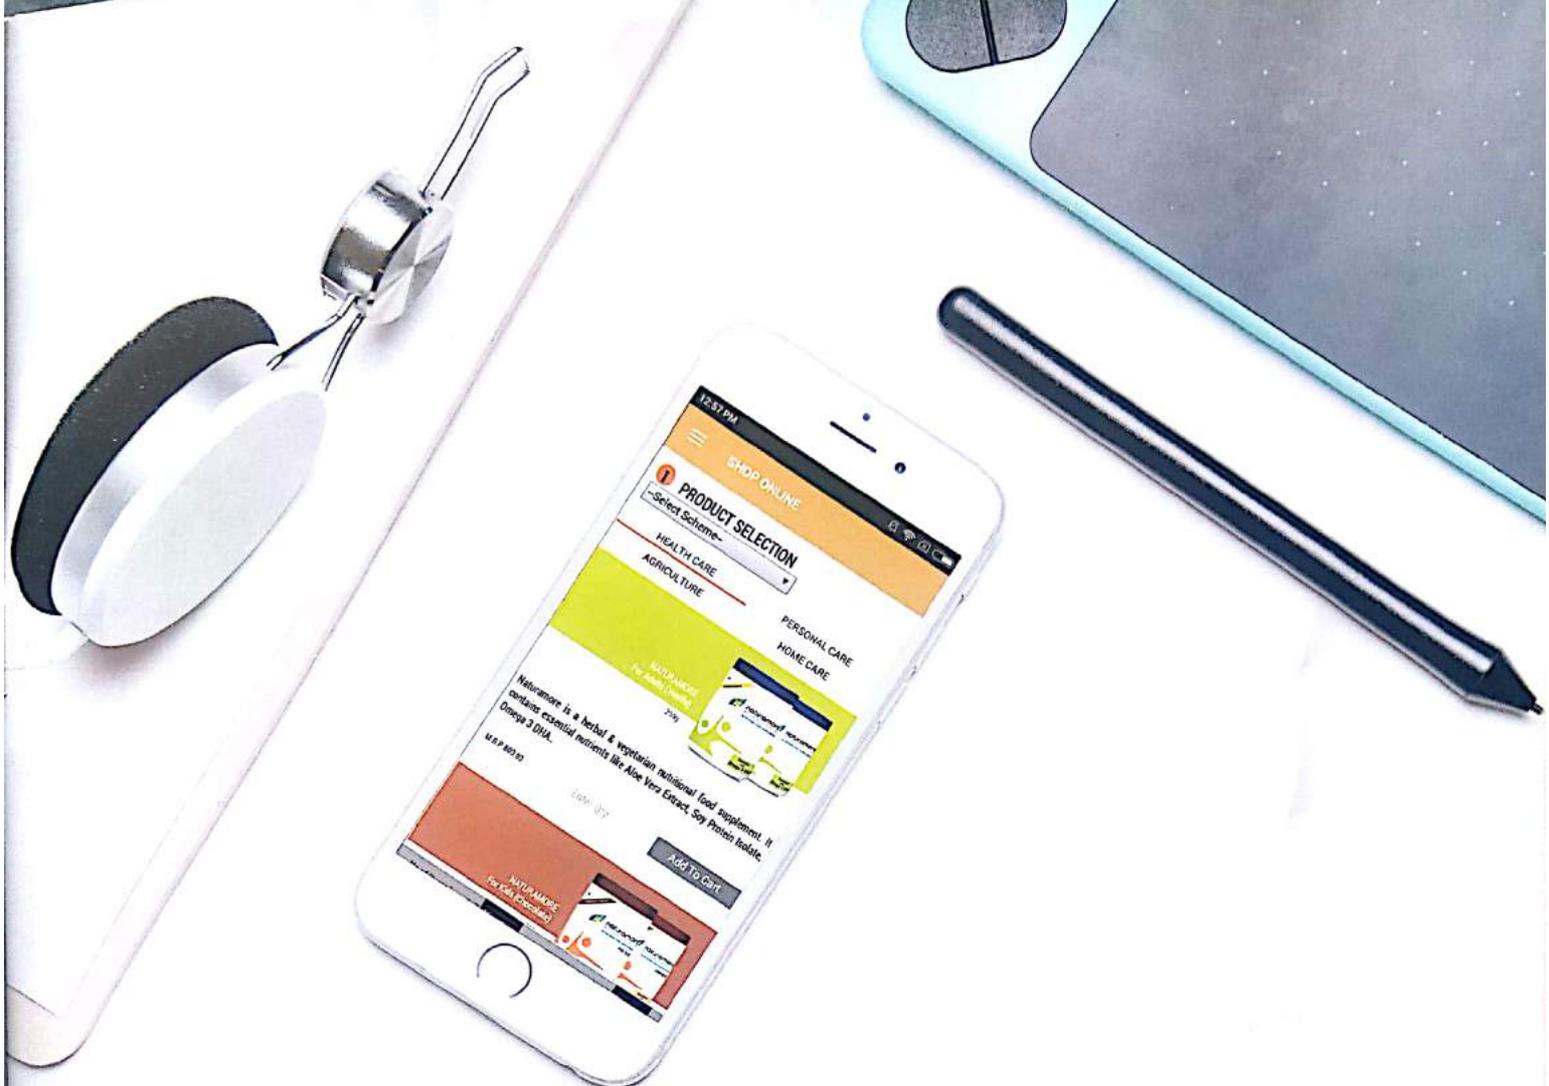

**8. No Mandatory Purchases Of
Peripheral Or Accessory Products**
(viz. marketing collaterals, training material, etc.)

Terms & Conditions:

For remaining active in the business, every Direct Seller needs at least one commission cheque of Rs. 500 or above in one financial year. 3. **Cooling off period:** The Direct seller has an option to opt out from the Network of Netsurf Business within 30 (Thirty) days of login date. 4. **Buy-back Policy:** A Direct Seller is allowed a buy-back period of 30 (thirty) days from the date of receipt of product purchase. 5. **Green Zone:** A Direct Seller can achieve his/her status of an Master Direct Seller within 90 from the date of login. 6. If a Direct Seller is inactive for one year then his carry forward sales turnover will be forfeited. If a Direct Seller is inactive for two consecutive years or more then he/she will be blocked or terminated. 7. If a direct seller has a carry forward amount of commission for 12 months then those dues will be forfeited and that direct seller will be marked inactive.

NETSURF & TECHNOLOGY

360 degree online:

Technology has been the expertise of Netsurf since inception. Resultantly, it has a 360 degree online system. Netsurf direct sellers can handle their entire business operations online and they can see their own earning calculations. This not only leads to transparency but also eases the whole process for our direct sellers as they can do their business from wherever they are.

Customized 'Online Shopping Portal'

Direct sellers can avail a link of their own online shopping portal. Their consumers can purchase Netsurf's products online through this link and the profits and other benefits directly get added to the respective direct seller's account. This facility eases the business from across the regions.

'Netsurf Network' – the mobile app:

Today, technology has revolutionized the business world. Our direct sellers' target customers may be more approachable on screen than face-to-face. Netsurf has a unique app- 'Netsurf Network' which enables the entire business handling of a direct seller through smart phone. They can easily connect to their downline team & customers, do a smart business analysis & progress mapping. This technology adds great mobility, convenience, effectiveness and efficiency in the direct seller's business. Till date, more than 1 lac direct sellers have downloaded the Netsurf Network app.

Key features of Netsurf Network Mobile App:

- Add a new director seller
- Make guest list through phone book
- Manage 'My Region'
- Monitor team's club netsurf status
- Showcase & share photos and videos
